1. Bruce and I are just friends. He has a girlfriend and I have a boyfriend, but we have been friends for many many years.
2. I love Sarah. She is my **best friend (bestie)**. She's **easy-going** and very **loyal**. We have a **lot in common**, like traveling.
3. I **trust** Peter with my whole heart. He always **has my back**, in other words, he always looks out for me and sees that I don't do silly things.
4. Jessie is so funny. She is one of my friends. We **get on very well**. She always makes me laugh.
5. We were a group of six girls at college. We did everything together. I **lost touch** with two of them but am still **in touch** with the other four. I often see them because we all live in the same city.
