A mansion in our neighborhood

I viewed the new house on the corner, the other day! Wow, what a lovely place! The owners must be very rich - it is huge!

It's a **double-story** and on the ground level, it is fully **open plan**. It has 6 bedrooms and 6 bathrooms. So you can imagine how **spacious** it is.

The **master** bedroom has two **walk-in closets** - one for him and one for her. In the kitchen and all bedrooms are **built-in-cupboards**.

I know you are going to love the **attic**. It is ideal for you to do your writing. Just big enough and private and will be wonderful to create your thoughts.

The house is very **modern** and looks very stylish. Mhmm, I would like to visit and see how she decorated it!

There is a **basement** as well which is big enough to host a gym. I think whoever owns this house, will use it for this purpose.

The **hallway** is so impressive! Huge and beautiful high **ceilings**. Each bedroom has a **balcony** from where you can view the garden and pool area. There's a beautiful **patio** outside the living room. In summer it will be a good place to enjoy your breakfast or dinner with the family.

Before I forget, it also has a **double garage** which can host two cars.

A house in Tuscany

My sister and her husband just bought a beautiful **villa** in Tuscany, Italy.

It is situated in a very quiet **neighborhood** and they are busy revamping it. She is very artistic so I expect some very interesting and beautiful **decor** inside.

Her **next-door neighbors** are a retired couple from Rome. They are very friendly and helpful and often bring a bottle of wine and some snacks and spend an hour or two chatting.

My sister and her husband love entertaining so the **billiard room** is going to be a winner. Whilst the men do some **BBQ** outside on the **patio**, the children can keep themselves busy, playing pool or snooker. There is also a dart board and some other games. A lovely room!

A perfect place for a couple who love entertaining!
