Plastic Surgery

Essential words to know which your teacher will explain to you.

consultation

nose surgery

facelift

liposuction

breast lift

buttock lift

eye lid surgery

cheek and chin reshaping

1. When we are thinking of plastic surgery, we can go to a plastic surgeon for a **consultation**. This means the surgeon will advise on what changes to make to your face or body.
2. Many men and women want **nose surgery**. They feel their noses are too small or too big so they change them.
3. As we get older, many men and women want to have a **facelift** to make them look a few years younger.
4. Many men and women want to have **liposuction**. They want the surgeon to remove fat from certain places in the body, such as the hips, thighs, and stomach.
5. Many women want a **breast lift** or **enhancement** to make them smaller or bigger.
6. Many women want a **buttock lift**.
7. Many men and women want **eyelid surgery**. When they have a single lid, they want the surgeon to cut and make the lid double.
8. Many men and women want a **chin and cheek reshaping** as they are not happy with their cheeks or chin.
