

Guess the word

WHAT'S THE WORD

Space

Choose a word from the word bank and complete the sentences.

Venus	rocket	Mars	black hole
space	full moon	crater	telescope
half moon	Milky Way	shooting star	quarter moon

What Am I?

1. I am red, dusty, and cold. I am the fourth planet from the Sun.
2. You can only see me at night. I move very fast and I glow as I move. I burn up and disappear.
3. I am bigger than you can imagine. Nobody can hear you scream when you are in me. There is no air in me. You can also “float” when you are in me.
4. I am very beautiful and bright when you can see the *full me*. But you can not always see the *full me*. Sometimes you can only see a “*quarter of me*”.
5. I am the second planet from the Sun and am Earth's closest neighbor. Sometimes I look like a bright star in the morning or evening sky.
6. I am a big group of stars. It is usually easy to see me on a clear night. I look like a white *band* of stars stretching across the sky.
7. I am a hole. You can find me on the surface of the earth or the moon. I can be very big.
8. I am beautiful and bright when you can see the *full me*. You can not always see the *full me*. Sometimes you can only see “*half of me*”.
9. I am black & scary. There is no light or anything for anyone to see.
10. I am an important tool in the study of planets, stars, and other objects in outer space. You need me if you want to see more.
11. You need me if you want to visit space. I can get you off the earth and into space. I am very powerful.
12. People love to take photos of me. I am worried that people are going to come and do some mining on me, and live on me. I am very beautiful, bright, and romantic.

Teacher's Key
