TEACHER WORKSHEET

1. How does the snake move?

If you have children in the class, let them form a snake (stand behind each other with their hands on the shoulders of the person in front). The teacher stands in front of the class and demonstrates the movement and the word.

Words to practice:

|	
quick+ly = quickly	slow+ly = slowly
high = high	low = low
soft+ly = softly	loud+ly = loudly
quiet+ly = quietly	hard = hard

The students will move forward by shouting the word and moving according to the word, i.e. quickly means they will move quickly, etc.
