True or False?

Look carefully at the picture.

Decide whether each statement is **True or False**.

1. There are horses on the farm. _____
2. There are sheep in the field. _____
3. A tractor is near the road. _____
4. There are birds in the sky. _____
5. There are people working on the farm. _____
6. There are vegetables growing near one of the buildings. _____
7. All the horses are outside the fence. _____
8. There are chickens on the farm. _____

Correct the false statements.

Babies!

Match the animal with its baby.

cow	lamb
horse	chick
sheep	duckling
pig	foal
chicken	calf
duck	piglet

Now choose **three** and make sentences.

A baby sheep is called a lamb.

Animal Opinions

Choose **one**.

- I think cows are interesting because...
- I think horses are beautiful because...
- I think chickens are useful because...
- I think pigs are funny because...
- I think sheep are cute because...

Add a reason.

What Comes From a Farm?

Put the words into the correct group.

milk • fruit • eggs • wool
vegetables • meat • flowers

Which of these do you eat?

Animals	
_____	_____
_____	_____
_____	_____

Plants	
_____	_____
_____	_____
_____	_____

At the Farm

Student A is a visitor.

Student B is a farmer.

The visitor asks questions:

- What animals do you have?
- What do the animals eat?
- How many animals do you have?
- Where do the animals sleep?
- What do you grow?
- What is your favourite part of farming?

Change roles.

Farm Problem

The farmer has a problem:

The chickens have escaped from their area!

Work together.

What should the farmer do?

Use:

- We should...
- We could...
- Why don't we...?

Try to think of **three solutions**.

Short Writing

A Day on a Farm

Write 70–90 words.

Imagine you spend one day on this farm.

- What do you see?
- What do you do?
- Which animal do you like best?

Teacher's Key
