

Dear Juliet.

LOVE YOU, ROMEO

Do you know Romeo and Juliet?

I am going to be Romeo, and you are Juliet.

I (Romeo) am in another country, and because I love you, I will write a letter to you every week.

You have to guess where I am.

1. Week 1. **Dear Juliet,**

I am in a city that is more than 700 years old. You will notice something very strange here; many of the old buildings lean against each other. The city is famous for its historical attractions and gets thousands of tourists every year.

Can you guess where I am?

Love you, Romeo.

2. Week 2. **Dear Juliet,**

The summers here are comfortable and partly cloudy. The winters are long, cold, and mostly cloudy. Rain falls throughout the year, with the most rain in Dec. The best time to discover their street food and famous coffee shops is during summer. *I wish you were here.*

Love you, Romeo.

3. Week 3. **Dear Juliet,**

The people here love their cheese. Cheese is so much part of their life, and famous cheese markets are perfect places to enjoy this special product and other traditions from their country. *Where do you think I am?*

Love you so much, Romeo.

4. Week 4. **Dear Juliet,**

The local people have been brewing (*making*) beer since the Middle Ages. Adults and children used to drink beer because the water was often “dirty”, and they did not have fridges for milk. In those days every city had its own brewery (*like a factory*) and today you can taste beer at many breweries or go to one of the many beer pubs around the country. Amazing!

Can you guess the name of this place?

Love you with my whole heart, Romeo.

No more letters, but some more clues (quiz questions) for you.

5. This country has an Anne Frank museum. *(Any guess where I am?)*
