## A VISIT TO THE CLOTHING SHOP

Mom and I are visiting the **clothing shop** today. I need a few items for summer. We are traveling by subway to our favorite **store!**

The subway station is in front of the big store. We can buy anything here. From **clothing** to **accessories** - everything under one **roof!**

Mom, I need **underwear**. The underwear is all made of **cotton** and very nice for a young girl. Mom knows what we should buy.

Then, it's time to find a **swimsuit** and I would also like a **dress, shorts, t-shirts, and sandals**. I also need **flip-flops** for when we go to the beach. And a **beach towel**. They are big and lovely to sit on at the beach.

Mom, can we also buy a pair of **sunglasses?** Please! I just learned at school how important it is to wear protective sunglasses in summer. My eyes are very **sensitive** so I really need this. Please, mom!

I like wearing **shorts** and **t-shirts** in summer. It is comfortable and looks cool. I don't really like **skirts**, but some of my girlfriends wear them. They are beautiful and **floral**. The colors are beautiful.

If Mom allows, I would like to buy a **necklace**. I think it looks **cool** for a girl to wear a **tiny** necklace. Not big, just very **plain**.

I wear a size **Small**, so it is easy to find clothes. I first need to fit them in the **fitting room**, and then we can buy them. We usually pay by **credit card**. Mom brings our **recycled bags**, so we do not need to buy any bags. We care about the environment.

Shopping is such an enjoyable **outing** for me. My mom is kind and usually buys what I ask! I am so lucky!
