10. Money isn't (*ehvergytin*). _____

Prices

Do you know how to say prices in English?

The easiest, and most useful way, is to say the first number (before the period/full stop) and then the second number (the “cents” after the full stop).

Practice saying these prices (in euros) with your partner.

The first one has been done for you.

1. €5.50 - Five fifty.
2. €49.99 - _____
3. €50.00 - _____
4. €3.45 - _____

You can also say the words euros and cents in the price (usually with bigger numbers).

5. €545.50 - five hundred and forty-five euros and 50 cents.
6. €30.80 - _____
7. €49.50 - _____
8. €2.25 - _____
