## HOW TO MAKE MY BED

### My New Bedroom

I am so happy! We moved to a new house and I don't have to share a bedroom with my sister anymore. She has her own room and I have a lovely room with a big window and lots of sunshine.

Thank you Mom and Dad for working so hard. My sister is also very happy because she is in High School now and she has to study a lot. She has a big desk in her room and can work late at night without worrying about me.

We used to have bunkbeds in our room, but now we each have a new single bed with bedside tables and a bedside lamp. I go to bed early and I think our cat is also happy because it comes to sleep with me every night. The cat always wakes me up early and then I get up and make my bed.

My room is always nice and tidy and I enjoy going to my room after school. I finish all my homework before dinner and then I have free time to play on my mobile phone at night. I love my room, my bed, my desk, and my parents!
