

Short story.

MY NEW CELLPHONE

Oh my goodness, I am so excited! I just bought the mobile phone of my **dreams**! I need to show my roommate!

It is the **latest** on the **market**. I **saved** for two years so that I can buy this new phone. It looks so **cool**. The **face** is black and the back is silver in color.

I like to **chat** on **social media**. Sometimes my friends and I study together on social media. We help each other with projects and it makes studying easier.

Over the weekend, I like to play **video games**. This phone has many **built-in games** which I love. I play against other people and the **screen** is nice and big so I can see very clearly when I play a game.

The phone also has a cool **ringtone**. I have never heard this one before so I think I will be the only person with this kind of ringtone. At first, it sounds a little bit strange but the more you listen to it, the more you like it!

I bought the phone at a **discounted** price. The saleslady said there were only a few of these phones made, so I am proud that I am one of a few people who have one!

I do not have to type in my **pin** when I want to work on the phone. It **scans** my right eye and would know if it is not me who tries to use it. I will be able to use it anywhere as most of the places where I go, have **Wi-Fi**. I am still a student and do not want to spend extra money on Wi-Fi.

There are so many **apps** that I must **download** and **install**. It's going to take me hours. But I **don't mind** because it will also help me to learn how to use my new phone.

My classmates are going to be so **jealous**. I will advise them to get a **part-time job** and save enough money to buy a new phone.

I must go now because I want to work on my new phone!
Speak to you later, Megan.

True or False
