

Basic 1 Third review game.

How It Works - 4 Players per group

Throw the dice and the player with the lowest score asks the questions and gives the answers. This player does not take part in the game, but it is his duty to give the answers and keep the score.

Each player chooses a different color token.

For every correct answer, the player gets 5 points.

For every wrong answer, the player loses 2 points.

If the players don't know the answer, ask the teacher for a clue!

Key
