

I LOVE ICE CREAM

There's a special ice cream shop in our city. They make the best ice cream.

Mom sometimes takes us there for a treat; other times, she buys a **tub** of ice cream and we eat it as a **dessert** at our Sunday **lunch**.

There are all kinds of **flavors**; strawberry, vanilla, chocolate, blueberry, caramel, and coffee. Oh my goodness, the ice cream is really lovely.

You can buy a 5 liter tub which is what Mom keeps in the freezer for dessert. Dad usually eats his ice cream in a medium tub and I eat a cone. A medium tub contains two scoops of ice cream and a small tub only has one scoop. Dad eats his ice cream with a small spoon. My little sister likes a curly cone. She eats so slowly that sometimes the ice cream starts to **melt**. One has many choices of flavors. As a special treat, the lady puts some nuts on top of the ice cream.

You can also ask for a chocolate **sauce** over the ice cream. Dad loves this. He always orders a medium tub of chocolate ice cream with a chocolate sauce. He is really into chocolate and ice cream.

I remember a visit to Italy when my family visited the country. They make a special ice cream which is known as **Gelato**. The recipe was created in the 16th century and I will never forget that delicious ice cream. I wish I could eat it again!

The ice cream shop also sells ice cream that is made of **frozen yogurt**. Mom prefers that. I also like that. Sometimes I feel like a curly cone or a frozen yogurt in a small tub.

Ice Cream is a lovely treat, but one shouldn't eat too much as it can make you fat.

Comprehension Questions
