

WARM-UP

Restaurants

If we talk to people around the world about food, the Italians for example, will tell you the best food in the world is Italian food, the Germans will tell you the best food is German food, the Chinese will tell you Chinese food is the best in the world, and the Greeks about Greek food, the Spanish about Spanish food etc.

1. So for today's lesson, let's agree that the best food in the world comes from your country, but only for today! 😂
2. Which country do you think produces the second-best food?
3. Many people say French food is the best in the world.
4. What do you know about French food?
5. What do you know about restaurants in France?
6. Do you prefer to sit inside the restaurant or outside?
7. Do you prefer to eat in the same restaurant or try new ones?
8. Do you usually have the same food or do you like to try different/new dishes?
9. Which of these is the most important part of the meal: the starters, the main course, the dessert or the wine?
10. Do people usually leave a tip in your country? If so, what percentage? What do you think of this custom?
11. When you choose a restaurant, what role does the decor (e.g. plastic chairs) play in your decision?
12. If you could add a dish from your country to a French menu in Paris, what would you add? Why is this dish so special?
13. Have you ever eaten a dish from another country that you didn't enjoy?
