

HOSPITALS

Student A

1. Are there enough doctors and nurses in the hospital?
2. Have you ever been to a hospital as a patient or visitor?
3. Are most people happy with the hospitals in your country?
4. Hospitals can get crowded and wait times can be long. What are some ways hospitals could improve their efficiency to get patients seen faster?
5. Do you know anyone who gets scared at hospitals? What makes them nervous?
6. Would you ever volunteer at a hospital? What kind of jobs could you do to help out?
7. How do hospitals in your country find good nurses and doctors?
8. Do hospitals in your country advertise on TV or social media? What kind of message do they try to send?
9. Do you donate blood? Should people who donate blood get better treatment when they go to the hospital?
10. How can hospitals create a more positive and comfortable experience for patients?

Student B

1. Have you ever spent a few nights in the hospital?
2. Are the hospital staff usually helpful and friendly?
3. Do you prefer a female or male nurse?
4. Do you think nurses get paid enough?
5. Would you like to work in a hospital? If yes, what would you like to do?
6. Have you ever been to a hospital in a different country on vacation? What was it like compared to hospitals here?
7. Do you like the food they give you in the hospital? Is it enough?
8. Do you like watching TV programs about hospitals? If yes, what is your favorite hospital TV series?
9. Do you think it is OK for someone to pay extra money to “get to the front of the line” for an operation?
10. Telemedicine allows patients to see doctors remotely. What are the advantages and disadvantages of telemedicine?
