

Deserted Island

An individual task, pair work, and a group project.

You and 3 friends are going to be on an island for a very long time!

There is no civilization, WiFi, or any other people on the island. It will only be the four of you.

1. Think of things you would like to take that can make your life comfortable and more pleasant. Make a list of 8-10 items.
2. When both your partner and yourself have finished your lists, compare lists and discuss possible problems you will encounter on the island.
3. Then, have a group meeting and decide on a list of items that will help with these problems. Finally, decide on 8 things ONLY to take with you. List them in order of importance.

Responsibilities

4. As a group, decide who will be in charge of
 - a) building a durable, weather-resistant shelter
 - b) methods for collecting and purifying water, such as rainwater
 - c) vegetable farming
 - d) tools and weapons - create tools for hunting, fishing, and building, such as spears, knives, and fishing lines.
 - e) fishing & hunting - set up traps for catching fish and small animals.
 - f) cooking
 - g) making the rules & punishment for breaking the rules
 - h) organizing firewood - build a safe fire pit that can be easily maintained. Gather and stockpile firewood.
 - i) cleaning
 - j) health and hygiene - creating a routine for personal hygiene, including regular bathing and cleaning of clothes.
