BODY PARTS

Who in your family is the happiest with their body? Write some sentences about your family and their body parts, for example, my father is unhappy with his big stomach, my mother says her hair is too thin, my sister does like her nose, my grandmother is complaining because she is getting shorter, etc. If your family members don't have any problems, what problems do you think they have, for example, my sister's nails are too long, my father should shave his beard, etc.
