AGE

Write sentences about the different age groups in your family. You can write about your close family, cousins or uncles and aunts. You can also write about baby or older pets if you have pets.

Examples: My grandparents are older than 70 and they love gardening. My sister is sixteen and she has a part-time job. She spends all her money on clothes and makeup. My mother and my aunt love baking. Every week they bake cakes and cookies, which they sell at the market on weekends.
