THE FUTURE

Write some sentences in the box below about the future and your family. For example, my father wants to go and live on Mars, my mother wants to become a model, my sister wants to get married but she doesn't have a boyfriend, my grandma wants to get married again, etc. You can also write about what you think the future will be like for each of your family members for example; where will they live, with whom will they live, whether they will have pets, and how happy will they be, etc.
