

INVENTIONS

1. Do you like the “inventions” in sci-fi movies?
2. What inventions should school children get, and at what age? For example: at what age should kids get a bicycle? Etc.
3. Can you name some inventions you are looking forward to?
4. What do you think of space travel?
5. Who is the “leading inventor” in the world at the moment?
6. Would you like to work for this inventor?
7. Can you remember what invention impressed your father the most?
8. What inventions do you think your children will have, that you don’t have?
9. Do you think the inventions we see in sci-fi movies now, will become a reality a few decades later?
10. We have many “dangerous inventions”, i.e. weapons and cigarettes. What other inventions do you think are dangerous?
11. What would you like to invent that you can use in your daily life?
12. If you could travel in a time machine, would you like to go forward, or backward? Why?
13. Are there any inventions that you wish your grandfather could have used in his younger days?
14. Which country do you think should invent a new leader? 🤖

More Discussion

1. What fictional invention would you most like to exist in real life? *[Think hoverboards, teleportation devices, or invisibility cloaks!]*
2. If you could invent a useless but hilarious gadget, what would it be and what would it do? *[Think a machine that folds your socks perfectly or a device that dispenses unnecessary compliments.]*
3. If inventions could talk, which one would be the most likely to complain and why? *[Maybe the alarm clock is tired of waking us up, or the calculator is frustrated with endless math problems.]*
