

WARMUP

Student A

1. What is your favorite beverage to drink in the morning? Why?
2. What kind of tea or coffee do you usually drink?
3. How important is it for you to drink plenty of water each day? Why?
4. What kind of juice do you drink the most?
5. Have you ever made your beverages at home, like smoothies or juices?
6. What are some healthy alternatives to sugary drinks?
7. How can we reduce waste from single-use beverage containers?
8. Is it still necessary for men to buy ladies a drink?
9. Do you prefer bottled juice or freshly squeezed juice?
10. When do you most enjoy a cup of tea? Where?
11. Do you just make instant coffee at home or do you drink filter coffee?
12. Do you drink bottled water (plastic bottles) or do you drink tap water? When it comes to beverages, what do you think is more important: taste or health benefits?

Student B (Focuses on Habits and Preferences)

1. What's your favorite drink on a HOT summer's day?
2. Do you prefer hot or cold drinks?
3. How do you feel about energy drinks?
4. Do you like to add sugar or milk to your coffee/tea?
5. Do you ever buy reusable water bottles instead of plastic ones? Why or why not?
6. What kind of beverages do you typically drink with meals?
7. Do you drink soda (pop) often? Why or why not?
8. When you exercise, what do you like to drink to stay hydrated?
9. Do you think it's important to limit your caffeine intake? Why or why not?
10. What's your favorite alcoholic drink?
11. What's your favorite non-alcoholic drink?
12. What is a traditional beverage from your country? How is it made?
13. Do you like to try new and different beverages?
