

CINEMA & MOVIES

Process Of Making A Movie

Use the words in the block to fill the gaps.

cinematography music department script production design
sound effects writer casting director screen visual effects
producer sound department editing director

From Script to Screen

So, you want to know how a movie gets made? Well, it all starts with an idea from a _____ (1). They scribble down a _____ (2) and hope a _____ (3) will like it.

If the producer is on board, they'll find a _____ (4) to bring the story to life. The director works with the _____ (5) to find the perfect actors for the roles.

While the actors are getting ready, the _____ (6) team builds the sets and creates the costumes. The _____ (7) team figures out the camera angles and lighting.

When filming starts, the _____ (8) department records all the dialogue and sounds. Later, the _____ (9) department adds a soundtrack and the _____ (10) team adds all the cool noises.

After filming wraps up, the _____ (11) team puts all the pieces together. The _____ (12) team adds the magic – like explosions, CGI, or special effects.

Finally, the movie is ready for the big _____ (13)!

8. sound department
9. music department
10. sound effects
11. editing
12. visual effects
13. screen

From Script to Screen

So, you want to know how a movie gets made? Well, it all starts with an idea from a **writer**. They scribble down a **script** and hope a **producer** will like it.

If the producer is on board, they'll find a **director** to bring the story to life. The director works with the **casting director** to find the perfect actors for the roles.

While the actors are getting ready, the **production design** team builds the sets and creates the costumes. The **cinematography** team figures out the camera angles and lighting.

When filming starts, the **sound department** records all the dialogue and sounds. Later, the **music department** adds a soundtrack and the **sound effects** team adds all the cool noises.

After filming wraps up, the **editing** team puts all the pieces together. The **visual effects** team adds the magic – like explosions, CGI, or special effects.

Finally, the movie is ready for the big **screen!**
