

PUBLIC TRANSPORT

A. Following the Bus Route (10-15 minutes)

Instructions for Students A & B: Work with your partner. Read the simple bus route below. Then, answer the questions together.

Bus Route 7: Downtown Express

This bus starts at the **Central Bus Station**. From the Central Bus Station, the bus goes to the **City Park** (Stop 1). After the City Park, it goes to the **Shopping Mall** (Stop 2). Next, it goes to the **Main Library** (Stop 3). Then, it goes to the **University** (Stop 4). The last stop is the **Hospital** (Stop 5).

1. Where does Bus Route 7 start?
2. What is the second stop after the Central Bus Station?
3. Which stop is after the Main Library?
4. If you are at the Shopping Mall, how many more stops is it to the Hospital?
5. You want to go to the City Park. Which stop do you get on at if you are at the beginning of the route?
6. Which stop is the last one on this route?

B. Buying a Ticket (10-15 minutes)

Instructions for Students A & B: Work in pairs. Take turns playing the roles of the **Ticket Agent** and the **Passenger**. Use the information below to buy tickets.

Helpful Phrases:

- **Passenger:** "Hello. Can I have...?" / "How much is...?" / "I'd like to buy..."
- **Ticket Agent:** "Hello. How can I help you?" / "That will be..." / "Here is your ticket."

Scenario 1: Buying a single ticket

- **Passenger:** You want to buy one ticket to the city center.
- **Ticket Agent:** Ask "One ticket to the city center?" and tell the price is \$2.50.

Scenario 2: Buying a return ticket

- **Passenger:** You want to buy a return ticket (to go and come back) to the airport.
- **Ticket Agent:** Ask "A return ticket to the airport?" and tell the price is \$10.00.

Scenario 3: Buying multiple tickets

- **Passenger:** You want to buy three tickets to the museum.
- **Ticket Agent:** Ask "Three tickets to the museum?" and tell the price is \$4.00 each. Calculate the total.

Teacher's Key
