

## POCKET MONEY

### Part 1: Ricky's Saturday Job & His Money

It's Saturday morning! Ricky always washes his dad's car. His dad pays him **\$20** for this job. Ricky's sister, Nancy, also helps at home; she does the laundry for extra **pocket money**.

Today, Ricky has **\$20** from washing the car, PLUS **\$10** left from last week's pocket money. So, he has **\$30** in total!

Ricky wants to go to the cinema **with his girlfriend, Sarah**. He also wants to save some money for a new phone, and maybe buy a small snack.

### Part 2: What Will Ricky Do with His Money?

Ricky has \$30. Here are some things he can do. What would you tell him to buy or save for?

You can choose a few things, but don't spend more than \$30!

- Cinema Ticket (for Ricky): \$10
- Cinema Ticket (for Sarah): \$10
- Popcorn & Drink at Cinema (for both): \$5
- New app for his phone: \$3
- Add to Savings for new phone: \$10
- Small comic book: \$4
- New video game: \$25

### Your Plan for Ricky:

1. Ricky will buy / save for: \_\_\_\_\_  
Cost: \_\_\_\_\_
2. Ricky will buy / save for: \_\_\_\_\_  
Cost: \_\_\_\_\_
3. Ricky will buy / save for: \_\_\_\_\_  
Cost: \_\_\_\_\_
4. Ricky will buy / save for: \_\_\_\_\_  
Cost: \_\_\_\_\_
5. Total Money Spent/Saved: \_\_\_\_\_
6. Money Left (if any): \_\_\_\_\_

(Make sure your total is \$30 or less!)

### Part 3: Your Advice for Ricky

What is one piece of advice you would give Ricky about his money and his choices?
