

## GIVING & ASKING FOR DIRECTIONS

### ✨ Tips for Use

- Write these questions on the board and let students answer freely.
- Encourage short answers first (Yes, there is. / No, there isn't.), then expand with location details.
- Use gestures (pointing left/right, drawing quick arrows) to reinforce meaning.

### 👤 Pair Practice (Student A & Student B)

- **Student A:** Is there a library near your house?
- **Student B:** Yes, it's next to the park. / No, there isn't.
- **Student A:** Where is the nearest supermarket?
- **Student B:** It's on Main Street, across from the hospital.

### Flash Card Matching Activity - Quick Teacher Note

#### You already have:

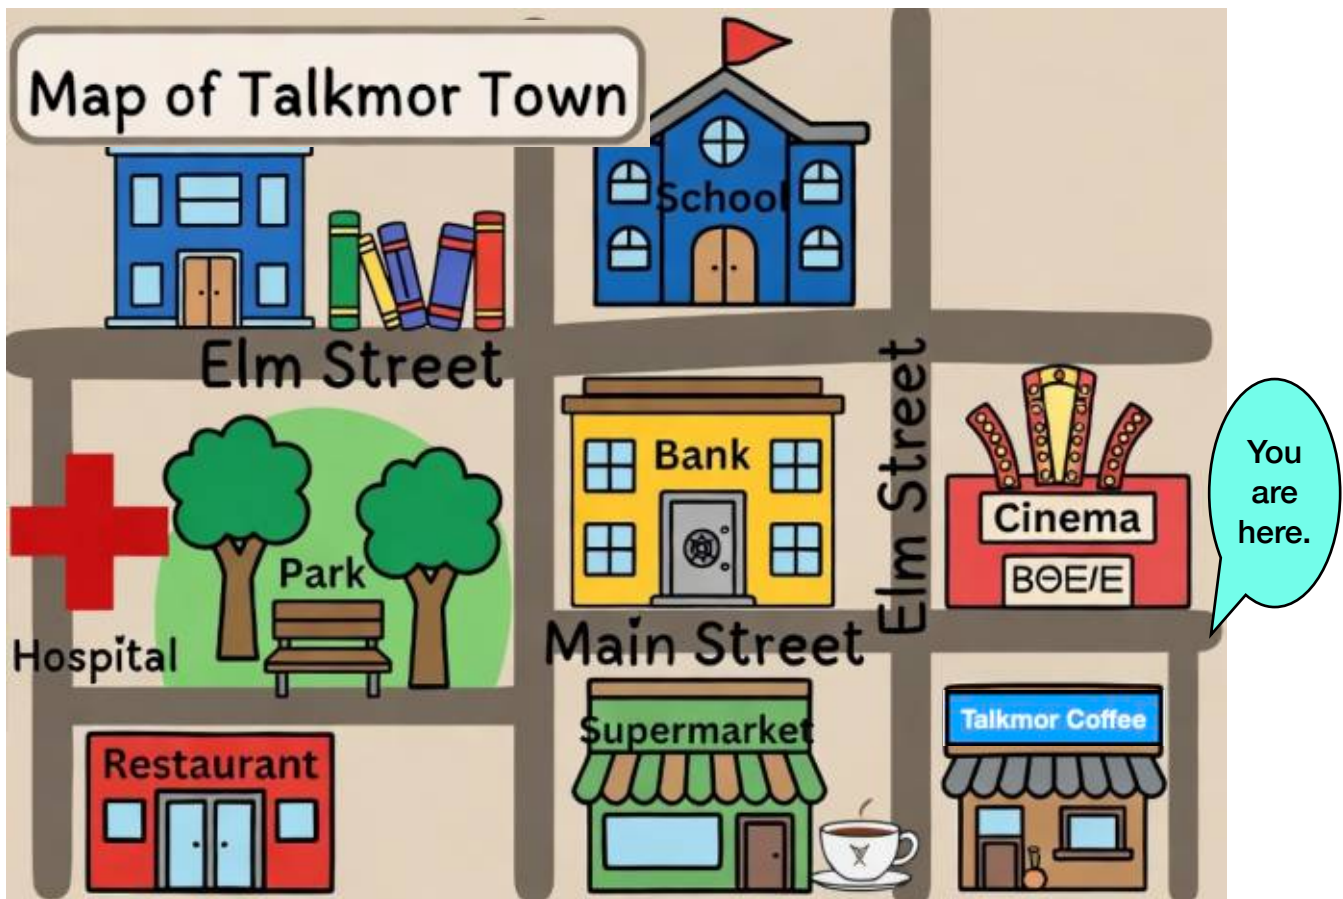

- 7 picture cards (e.g., road with straight arrow, left turn arrow, etc.)
- 7 word cards (e.g., "Go straight", "Turn left", etc.)

#### How to use them:

1. Give each student/pair 1 set of the 7 picture cards and 1 set of the 7 word cards (or spread them on a table if class sets).
2. Students match each word to the correct picture. (They can place the word card next to/ under the picture.)
3. Walk around and check: Say "Yes!" or gently correct if needed (e.g., show the matching pair).
4. Quick class review: Hold up a picture → students shout the phrase. Or hold up a word → students point to/show the picture.
5. Praise: "Great job! Now let's use these words on the town map."

#### Match the words to the pictures/actions (or board drawings):

1. Go straight → (straight arrow)
2. Turn left → (left arrow)
3. Turn right → (right arrow)
4. Cross the road → (person crossing)
5. Next to → (two buildings side by side)
6. Opposite → (two buildings facing each other)
