## PDF 1 – Warm-up, Reading & Comprehension

### 1. Warm-up (3–5 minutes)

Look at the picture.

- What do you see in the picture?
- Do you have any pets at home?
- What is your favourite animal?

## 2. The Story

I love pets. In our house we have two cats and one small dog. The cats are called Luna and Milo. Luna is white and very calm. She loves sleeping on the sofa. Milo is brown with stripes. He is crazy and playful – he jumps on everything and sometimes knocks books off the table!

Every morning Luna wakes me up. She sits on my chest and touches my face with her soft paw. Then I give them fresh water and food. In the evening they like to sit on my lap while I do my homework or watch TV.

We also have a small dog called Max. He is very energetic. He runs around the house with his ball and barks when he is happy. The cats just look at him like he is silly.

Pets make our home happier. They give us love and make us laugh every day. Taking care of them teaches us responsibility. When I feel sad, they come and sit next to me. I think cats are the best, but dogs are great too!
