

THE STORY BEHIND THE QR CODE

© talkmor.com

1. Speaking Warm-up

Discuss with a partner.

1. How often do you scan QR codes?
2. What do you usually use them for?
3. Do you think QR codes are useful?
4. Could you live without your smartphone?

2. Pair Work - Work with a partner.

Where Can You Find QR Codes?

Make a list of places where you have seen QR codes.

- Restaurants _____
- Cafés _____
- _____
- _____
- _____

Compare your lists with another pair.

3. Role-play - At a Café

Student A: customer. **Student B:** waiter.

The café uses a QR code instead of a paper menu.

Try to include:

- Excuse me...
- How do I scan this?
- I'd like to order...
- Anything to drink?
- Thank you!

4. Technology Debate

Choose one side.

Student A

QR codes make life easier.

Student B

Paper menus and printed information are still better.

Give at least **three reasons** for your opinion.

5. Discussion

1. When did you first use a QR code?
2. Should every restaurant use QR codes?
3. What happens if your phone battery dies?
4. Do older people find QR codes difficult?
5. What other technology has changed your daily life?
6. What invention do you think will replace QR codes one day?

6. QR Code Quiz

Choose the correct answer.

1. QR stands for...

A. Quick Read

B. Quick Response

C. Question Reader

2. QR codes were invented in...

A. Japan

B. Canada

C. Germany

3. QR codes were first used in...

A. Schools

B. Factories

C. Hotels

7. Invent Something Useful

Work in pairs.

Think of a problem people have every day.

Invent a simple piece of technology to solve it.

Give your invention:

-  A name _____
-  What it does _____
-  Who would use it _____
-  Why it is useful _____

Present your invention to the class.

8. Find Someone Who...

Walk around the classroom.

Find someone who...

Name

Name

... scanned a QR code this week

... paid with a QR code

... prefers printed menus

... likes new technology

... has never created a QR code

Report your results to the class.

9. Finish the Sentences (Share your answers with a partner)

1. I usually scan QR codes when...

4. One invention I couldn't live without is...

2. The most useful app on my phone is...

5. I think the future of technology will...

3. Technology helps me...

One More Interesting Fact!

Today, QR codes are used in **space**! Astronauts on the International Space Station use QR codes to quickly identify equipment and find instructions.

Teacher's Key

6. QR Code Quiz

Choose the correct answer.

1. QR stands for...

A. Quick Read

B. Quick Response

C. Question Reader

2. QR codes were invented in...

A. Japan

B. Canada

C. Germany

3. QR codes were first used in...

A. Schools

B. Factories

C. Hotels
