Numbers & Time in Real Life

1. My Daily Clock

Ask your partner:

1. What time do you get up?
2. What time do you eat breakfast?
3. What time do you start work/school?
4. What time do you finish?
5. What time do you eat dinner?
6. What time do you go to bed?

2. Guess the Time

Student A secretly chooses a time.

Student B asks:

- Is it before 6 o'clock?
- Is it after 8 o'clock?
- Is it half past seven?

Keep asking until you guess the time.

4. My Birthday

Tell your partner:

My birthday is on _____.

I was born in _____.

I am _____ years old.

Ask your partner the same questions.

5. Picture Detective

Choose one object in the picture without telling your partner.

Give three clues.

- It is yellow.
- It is big.
- You can see numbers on it.

Your partner guesses.

3. Number Telephone

Student A chooses a number between **1 and 100**.

Student B tries to guess.

Student A can only say:

Higher!

or

Lower!

Example:

B: Is it 50?

A: Lower!

B: 35?

A: Higher!

6. The School Bus Challenge

Imagine you are waiting for the school bus.

Your partner asks:

What time is the bus?

What number is the bus?

Where is the bus stop?

How many people are waiting?

Create your own answers.

Then swap roles.

7. Mini Conversation

Complete and practise.

A: Excuse me. What time is it?

B: It's _____.

A: Thank you.

B: You're welcome.

Now change the time **three times** and practise again.
