Debate

"Cities should give bicycles priority over cars."

Prepare arguments **for and against**.

Then debate with another group.

Design a Bicycle-Friendly City

Your city council asks you to redesign the city for cyclists.

You have money for **four improvements**.

Choose:

- protected bicycle lanes
- bicycle parking
- bicycle-sharing stations
- lower speed limits
- safer crossings
- better street lighting
- car-free streets
- bicycle repair stations

Explain your priorities.

Opinion Writing

Should Cities Spend More Money on Cycling?

Write approximately **150–180 words**.

Give reasons, examples and at least one counterargument.

Look at the Bigger Picture

Cycling isn't only about bicycles.

Discuss how cycling can affect:

- health
- traffic
- pollution
- city planning
- personal freedom
- money
- tourism

Which one is the most important?

The Cost of Cycling

Is cycling really cheap?

Consider:

- bicycle
- repairs
- helmet
- lights
- lock
- clothing
- storage
- insurance

Compare the costs with owning a car.
